

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use interferes with navigational instruments. The introduction of cell phone use in the cabin will not increase tension among passengers, it will not compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable passengers to communicate with authorities coordinate a plan of mitigating action to inappropriate in-flight behaviors more effectively.

Please change the current rules in effect to permit in-flight use of cell phones.

Sincerely,

Judith Bocox
